SUBJECT: Expectation on the Hill

REFERENCE: Memorandum for C/CI from DCI, Dated  
4 August 1986, Same Subject

1. In view of your 4 August memorandum to me, I spoke with John Elliff, SSCI Staffer, on 6 August 1986. He told me that the SSCI had received the unclassified assessment of the hostile intelligence threat which Bob Gates had sent to them on 29 July 1986. John said that all were very pleased with the unclassified assessment and that it was "just what they needed." I told him that if he needed additional input, please let us know.

2. Dick Stilwell has called a meeting for 6 August concerning his draft of the Presidential Report. I plan to make certain that the report does all possible to convey the idea that we are taking significant action in regard to the hostile threat.

3. All portions of this document are classified Secret.
